k. Description of Request: To improve seismic stability of the Priest Rapids Dam, Grant PUD requests to amend its license for the Priest Rapids Project to create a separate embankment immediately downstream of the existing dam, and structurally connected to the existing embankment. This embankment would also include a new, approximately 2,200-foot-long roller-compacted concrete dam; and an approximately 150-foot-long, 25-foot-high secant pile cutoff wall and connecting embankment.
